

NANCY ROSE

SHORT BIOGRAPHY

Nancy Rose is the author of ***Raise the Child You've Got—Not the One You Want*** (2013). Calling herself “The Acceptance Advocate,” she offers presentations and workshops, and writes about the fundamental need of children to be accepted as they are, and her new model of parenting called Leading with Acceptance. In her twenties, she awoke from what she calls the “trance of accomplishment” when she realized she’d become a tax attorney and CPA so her mother would like her.

She has spent the last 25 years studying the power of acceptance in parent-child relationships, while raising her two sons, and as an author, speaker, and parent coach. Her mission is to make sure children receive the validation and guidance they need in order to become the best version of who they are, rather than who they think they should be in order to be loved.
