

NANCY ROSE

Parenting + Life Strategist

SHORT BIOGRAPHY

Nancy Rose is the author of the award-winning and thought-provoking book, ***Raise the Child You've Got— Not the One You Want*** (2013). Her mission is to call attention to the fundamental need of children to be accepted as they are.

Nancy has spent three decades studying the power of acceptance in parent-child relationships, while raising her two sons, and as an author, speaker, and parent coach. Using her signature method of Leading with Acceptance, parents help their children become the best version of who they are, rather than who they think they need be in order to be loved. In this way, strong, enduring bonds are formed and children are given license to shine.

With a background as an attorney, Nancy uses her advocacy skills on behalf of children and families, touching the lives of those who care to create harmony in the home, the workplace, and the world.
